Safety and Great Economy.

An opportunity is now offered to all whom it may concern to secure the exclusive right for manufacturing, using and vending in States and Towns

IRVING'S

Patent Safety Steam Boiler,

for Stationary Engines, Locomotives, Marine Engines, River, Lake and Ocean Steamers &c.—a plan upon which this Boiler over all others now in use are

—ENTIRE SAFETY FROM EXPLOSION being rendered liable to explode through an open chaldron. Less than ONE THIRD the amount of fuel required to generate the steam obtained by other Boilers of the same power.

—The cost of construction is reduced ONE HALF.

They occupy but ONE THIRD the space of other Boilers and may be applied to any engine now in use.

—The expense of Furnace Grates will be in a great measure lessened by the small amount of fuel required to do the manner of using it.

The company GUARANTEE the reality of the above advantages. Their conclusions are based on ACTUAL RESULTS in many of these Boilers now in use in and about this city. The invention has but recently succeeded after years of application in bringing this valuable improvement before the public. It stands alone and independent in its merits, and it has the qualities claimed which undoubtedly the public will at once acknowledge its superiority over any other motive power. Terms of sale made known on application at the office of the IRVING STEAM BOILER COMPANY, corner of Broadway and Park place New York, over the New Broadway Bank.

Circulars obtaining terms of sale &c., will be forwarded by mail if requested, address as above. [6mos

A New Delicious Temperance Beverage

Ambrosial Mead!

An excellent Compound is prepared from the best *Spanish Sarsaparilla*, without its dark, opaque appearance being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a preference over all other preparations, by its freedom from all noxious ingredients, agreeable flavor, and its exceeding *cheapness*. One sufficient for preparing thirty glasses of the same.

CAUTION.—The proprietors of this excellent preparation, having spared no expense to bring it to perfection, would caution purchasers to buy none but what has the fac simile of *Watson, Fairbank & Co* on every bottle.

BOUNTY LANDS, PENSIONS, &c.

The subscriber is prepared to obtain Bounty Lands for every Officer and Soldier who has served one month or upwards in any war of the United States since 1790.

All who were in the Aroostook War are entitled to Bounty Land for that service.

The widows or minor children of deceased officers or soldiers are entitled to the same amount of Bounty land the officer or soldier would be if living.

Widows and minor children of deceased Aroostook officers or soldiers are all entitled to Bounty Lands.

Pensions for all widows of Revolutionary officers or soldiers obtained by virtue of an act of Congress passed Feb 3d, 1853. This act includes all whether married since or before the year 1800.

Pensions for all officers or soldiers who have been (at any time) wounded or disabled or contracted disease, while in the line of those duty can be obtained for life for such officer or soldier, and in case of death five years pension for their widow or minor children.

☞ Five years additional pension can be obtained for widows and orphans who have been pensioned under the acts of July 21st 1848 and Feb 2d 1849.

☞ Parties in every part of the State (or elsewhere) having claims for land or pensions for claims of any kind) for their own service or the service of a relative will have them promptly and properly attended to by addressing the subscriber post paid. Write full particulars.

I have full copies of the muster rolls and records taken by myself from the originals in the War Department in Washington of nearly all who have done military service in this State which enables me to decide at once, whether a claim is valid.

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST embraces the denominations of *one two three four and five dollars*. These are distinguished by strips at the *right* ends of the notes composed of *geometric lathe work* and running towards the centre the number of strips corresponding with the amounts of the notes. Thus a red strip for one dollar two strips for two dollars &c. &c. and upon the centre of these strips a large figure, readily seen, designates the denomination of each note. In this class of notes, there are no borders on the *left* ends—which are occupied by vignettes and other work. The President's name will be placed under and near the geometric strip work on all notes of this class and that of the Register or some other name above it thus protecting the strip work from alteration—no place being left for adding another strip either above or below the signatures.

CLASS SECOND embraces the denominations of *ten twenty fifty, one hundred and five hundred dollars*. On these the whole arrangement is reversed. The strips of lathe work (different from the used upon the other class of notes) commence at the *left* ends and run towards the centre the vignettes and other work being upon the *right*. On this class the Cashier's name is placed under the strip work and that of the Register directly over it, the names being separated by one strip on a ten dollar note, by two on a twenty, three on a fifty, four on a hundred and by five strips upon a five hundred dollar note, *presenting a perfect contrast between the two classes of notes*.

Any person acquainted with the plan could not be deceived by any alteration of any one of these notes in either class from one denomination to another. The plan is a simple one and is comprehended almost at a glance, from an examination of the notes; for although so many lines are required to describe it in words the pictorial description is very short, and easily understood and remembered. The inventor JAMES A. WAIFER Esq. of New Haven Conn. has secured his invention by caveat, entered at the Patent Office at Washington and has made an arrangement with DANFORTH WRIGHT & CO., exclusively, for its use upon Bank Notes.

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan a very great security against *counterfeiting* is also afforded by the free use of the *geometric lathe work*, of which the borders are composed and which cannot be successfully imitated either with any other *machine* or with the *graver*.

☞ Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 16 years since but will last forever.

Boston January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia, have suffered much pain in the wearing of a ill fol accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Heath. After some months of observation of his work I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN M.D. Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with this sad and somtimes complaint. Mr. Foster's success in the manufacture and adapting them to the body giving ease and comfort to the wearer surpasses (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr. J. C. Warren as a sufficient guaranty for all who may favor Mr. F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

Safety Metallic Ladders For Buildings, and a perfect Lightning Rod Combined.

THE subscribers having the agency of a new invention, Washburn Holland & Co's Patent Metallic Ladders and Lightning Conductor for Bangor and vicinity, are now prepared to attach them to Factories Dwelling Houses and Buildings of every description in the most thorough and workmanlike manner. These Ladders are strong and durable and with the improved Lightning Conductor attached, afford a most perfect protection from the ravages of fire, either from lightning without or accident within. They come recommended by a strong array of names of those who have given them a trial among which is that of Prof. Silliman of Yale College, which is good evidence that this is a good invention and also forming a perfect lightning conductor. On the ground of economy they are just the thing costing but 25 cents a foot without the rods and duly with them giving you a good permanent ladder that is always on the back of your house, and of course not liable to be borrowed or lost. Those interested will please call and see them attached to a model of a building and the manner of connecting the rods.

FIRST VIEWS AND IMPRESSIONS OF ROME.

MESSRS. EDITORS.—With the improved facilities of motion, which were mentioned in my last letter, we approached Rome by the old Cassian way. The last place of much importance on our route was the town of Viterbo, the supposed site of the ancient "Fanum Voltumnæ," where the associated Etruscan States held their general assemblies. Passing the elevations of no great height, which mark on that side the boundaries of the CAMPAGNA ROMANA, we descended into the plain of the Tyber, which flowed on, about four hundred feet in breadth, with a full and strong current,—not clear and sparkling like the Rhone, but with that dark and muddy appearance which I had noticed in the Soane and Arno. At the distance of two miles from the city we crossed this celebrated river at the old Milvian bridge, the place where the envoys of the Allobrogi were intercepted in the time of Cicero; their letters taken,—and Catiline's conspiracy discovered. At this bridge, among other places which witnessed their patriotic resistance, the modern Romans opposed the recent entrance of the French with no small share of the courage of their ancestors. Passing down on the north side of the river, we came into the city by the "PORTA DEL POPOLO," the *Gate of the People*.

One of the first things which arrested my attention, as we passed through the People's Gate and into the great square into which it opens,

[illegible] Egyptian obelisk, which once stood in the Circus Maximus, but which was buried in the ruins of the city for centuries. It was erected by Rhamses the Great, king of Egypt, who was contemporary with Moses, and stood originally in the city of Heliopolis in Lower Egypt, and was brought to Rome by Augustus Cæsar after the battle of Actium. The sight of this interesting memorial of other ages and lands [illegible] to my mind [illegible] reflections which more than any other I visited since my departure either by arts or arms [illegible] conquered and the most ancient [illegible] emblem of the rise and fall of empires—the only thing on the dividing line between the old and the new world. [illegible] back to the time when Egypt was the mistress of the world, and Rome but a petty village of Latium, scarcely heard of beyond the limits of Italy. [illegible] because I had before seen [illegible] in the valley of the Nile, and [illegible] the Capitol, while the bare footed friars were singing vespers at the altar of Ara Cœli. After the lapse of eighteen centuries [illegible] the sovereign of Christendom [illegible] the statues of Castor and Pollux [illegible] the summit of the Quirinal Hill, [illegible] Augustus Cæsar, elevated on a single granite block. [illegible] the bronze equestrian statue which has come down to us from the time of Marcus Aurelius. [illegible] this is not the finest of the circumscribed [illegible] wheel in art to which [illegible] value I can give, especially when I add, that it is a statue of a stripling [illegible] of my mind, but I found to examine it with a power which [illegible] to mount to its pedestal. Again and again I found to examine it. The noble form of Aurelius is not [illegible] true to nature—the action giving life to the form, and [illegible] in graceful flowing with greatness and [illegible] impulse. Such are the works of art which are [illegible] in Rome and in Roman empire; so that [illegible] be true that she is dead in the breasts of her present nationalities, she [illegible] as she lives and will not cease [illegible] to be the [illegible] to the [illegible].

At the other extremity of the Capitol [illegible] is the Franciscan convent of Santa Maria di Ara Coeli. As I look upon this church I called to mind a passage in the writing of Gibbon, which [illegible] had a deep impression on me. It is [illegible] myself felt as I [illegible] in his autobiography. On the 14th of October 1764, as he sat musing amid the ruins of the Capitol, while the bare footed friars were singing vespers [illegible] the idea of writing the history and fall of Rome first occurred to his mind.

Leaving the interesting Campo [illegible] I know not how many years of [illegible] around it. I ascended the tower of the modern Capitol. Below me and during the Consular [illegible] were the seven hills of ancient Rome, so often mentioned by historians and the Latin poets. Rome [illegible] inhabited by Romulus and Numa and in the later periods of the republic the residence of Quintius Hortensius [illegible] now crowned with the fragments of [illegible] palaces—and the [illegible] which [illegible] covered the whole [illegible] mound of the Palatine. The mansions of Augustus and Tiberius [illegible] was the writing of Tyber's Moving among [illegible] memorials of decay and dissolution, I seemed to have no death and no decay in myself, but still kept on my [illegible] march as in the days of Romulus and Camillus, from its native mountains to the sea. Beyond the Tyber were mount Janiculum. In the opposite direction was the long line of the Quirinal. In the distance was the long line of the Apennines. Directly beneath me in one direction was the street leading to the Forum, and the other the old Roman road. Having looked upon these various objects I turned my face to the Capitol.

I have mentioned the great ruin of Rome and the world—and am reminded of my first visit to it. It was the evening of the day of our arrival in Rome. The sky was cloudless. The moon shone brightly. That night in company with the excellent friends who had accompanied me thus far, I went to the Coliseum. This immense building, taking its name as some have conjectured from its great size, is an amphitheatre, elliptical in its shape, six hundred and twenty feet in one direction measuring from the exterior surface of the wall and five hundred and fifteen feet in the other. The height of the wall is one hundred and fifty seven feet. This immense edifice was commenced by the emperor Vespasian and finished by his son Titus ten years after his return to Rome from the destruction of Jerusalem. Capable of holding originally 87,000 persons, and built with all the strength which architectural genius and profuse expenditure could impart to it, it is now a great mass of ruins. We walked through the broken arches of this mighty desolation. The moon threw its light full upon the open arena, making the dewy grass and the clinging ivy which grew in the fissures of the walls. I remembered Byron's admirable description

"I do remember me, that in my youth
When I was wandering, upon such a night
I stood within the Coliseum's wall."

I subsequently visited it in the day time. My mind had never been more deeply impressed by the greatness of man's works or the magnitude of their desolation; but the impression was subdued and obliterated by the recollection, that this very spot had been the scene of one of the great contests of Christianity. Within these vast walls the Roman people, in the days of its-

THURSDAY, JUNE 16, 1853.

☞ The course taken by President Pierce in violating the entire record of his political life by endorsing in his appointments all the isms and bolters of the party, has produced a want of confidence in him which will doubtless prevent his re-nomination, and cause disaffection among the political leaders.

New Hampshire, the home of the President, after every effort had been made to quiet matters has first led off in an expression of dissatisfaction, partial to be sure, but still significant, showing that there is more fire in that same flint. At the State Convention Hon. Edmund Burke, Chairman of the Committee on resolutions, prepared the following —

"*Resolved*, that we encourage ourselves with the belief that our distinguished fellow citizen, now at the head of the Government of the U. States, *will not in his future appointments overlook the Old Guard of the Democratic party, upon whom he must rely for successful support* in all the emergencies which may arise in the progress of his administration nor confer too many favors on those who support the platform *for one purpose and spit upon it for another*, and who have no real sympathy with the great national democratic party or its principles"

There is something of a stinger in the resolution, but it expresses very fully and accurately the views and feelings of a majority of the "old line democrats North and South, East and West

Mr Burke was subsequently chosen President of the Convention, a fact of no small significance, under the circumstances and the resolution above was modified by the new Chairman of the Committee to the following form

Resolved, That we encourage ourselves with the belief that our distinguished fellow citizen, now at the head of the United States, will not in his appointments overlook the old guard of the democratic party, upon whom he must rely for successful support in all the emergencies which may arise in the progress of his administration

The office holding party, the expediency men and the timid men in the Convention were alarmed that New Hampshire democracy should thus show signs of rebellion while the "old liners" were not pleased with the modified smoothing down of their sentiments and the resolution did not pass the Convention

It should be borne in mind that the dissatisfaction at the appointments does not arise from personal considerations, but is political. The president has give his sanction and approval to all the cliques and isms, branches and bolters of the party and admitted them all to the bosom of the democratic church with all their sins upon their head

The "Old Guard, of the loco party in New Hampshire, though having less personal occasion than those of any other State to complain, have felt how great a sacrifice their friends in other States were making in soothing their wrath, have, in the above resolution given them a hint and a sympathetic license to speak out boldly of the complaints It tells them to abandon at once their policy of keeping silence, and quiet submission, since they will necessarily involve them in the position of being merely a branch or section of the party, instead of their being deemed, as they are in fact the main support and strength of the party, for aside from the "straight along" national democrats, there is no "democratic" party If this party is to be shuffled off and fobbed about, there must be a foment at the outrage and a mutiny of revenge If the National platform is thrown away, these men reason, then the Buffalo platform must be substituted or the party has lost its identity and distinguishing characteristics, and is no where the essential grounds on which Gen Pierce was elected, that he would uphold the Baltimore platform in his appointments as well as in his policy, have been wrecked and a new combination of the elements must mingle and work off the fungus.

The future action of the "old liners" will show how they regard this matter, and we shall watch that action with some interest They have been badly Tylerized and we wish to see how they stand it

☞ We learn that Mr Morton, the Engineer of the European and North American Railway, has two parties now engaged in surveying the line between this city and St. John, N B

The whole road is to be accurately surveyed at the expense of Jackson, Brassey & Co, who are concerned in the Grand Trunk Railway.—Their instructions to Mr Morton, are, to run an air line, as nearly as possible, from St. John to Bangor, and for this purpose the country will be fully examined, and the shortest practicable route between the two points, will be taken

This same company are desirous of having arrangements made so that they may proceed to construct a road from this city to Unity, and from thence a branch to Waterville, another branch to Augusta, and another to Belfast They will undertake the construction of the road from St. John to this city with those branches, and also take a thousand year lease of the Androscoggin road at six per cent. and consolidate the whole into the Grand Trunk Railway, provided the American public will take stock to the amount of twelve hundred thousand dollars, in order to secure their interest and good will in the road

This is the talk now in railroad circles, and the subject is one of exciting interest. But it will be seen that in order to do this, the Bangor and Waterville Road, as such, must be abandoned, and this is among the difficult, and perhaps, undesirable things, in this world. The whole project seems dream-like, but not as much so as did the consolidation which has already been accomplished.

This much is certain, there is money enough in England for these purposes, and it will be forthcoming when the right man gave their sanction to the outlay.

☞ Messrs. Gorham & Green are still supplied with the Jackson potato from the great potato farm of Mr. Clements at Kenduskeag. This is esteemed by many as the best potato grown in the country and in this we agree. The new crop will be along in season to lap on a bit to the old stock.

FIRE.—Between nine and ten o'clock last evening, a fire broke out in a new building on Broad street, belonging to J. Huckins, Esq., which soon communicated to a large storehouse belonging to W A Blake, Esq. The buildings were both occupied by Mr. Huckins and contained a quantity of short lumber which was all consumed. Loss in buildings and lumber from 1200 to $1500. Mr Huckins lost his books.

☞ We spoke yesterday of the great rail road movement, in leasing the Atlantic and St. Lawrence road to an English Company, for one thousand years, in its effects upon Portland, and the stock holders of the road

We should also have stated that this company have now in the course of construction, six large ocean steamers, to ply between Liverpool and Portland They are, in the course of a few days, to pay off the debt of the Atlantic and St Lawrence Road, which is about one million of dollars, and they are also to expend some four or five hundred thousand dollars in Portland, in building wharves, warehouses, &c for the accommodation of their business. They also propose, the ensuing winter, to send all the Canadian flour to Portland for shipment, amounting, probably, to a million barrels — These movements have given a very great impetus to real estate operations in Portland—to a general rise in its value—have made Portland feel strong, and every man to feel rich, or sure of being so.

☞ The city authorities have purchased thirty acres of land, a Pine Grove, on Carmel road, about two miles from the City Hall for a public Cemetery with the design of selling rights to lots on a portion of the ground for private use the funds thus acquired to be expended in the embellishment and improvement of the Cemetery It is well to secure at an early period large and desirable burial places for the departed and this lot is said to be admirably fitted for the purpose and may be made very beautiful at a small expense, in clearing avenues through dark, sombre pine and other evergreen trees.

A correspondent of the Lowell Courier well says, in reply to those who declare the Whig party to be dead, that "the Whig party cannot be put to death It must live as long as its constituent elements continue, as long as wealth increases, as long as education is diffused, as long as Commerce flourishes, as long as the mechanic arts are the support and employ of a free and enlightened people The cry that "the Whig party is dead," we here drop with contempt."

PUBLIC LANDS. Recent statistics show that while we are pushing and striving for more room, we have more than a thousand millions of acres of land that we never use. The total amount of unsold and unappropriated lands in all the states and territories is 1,387,634,000 acres, or more than fifty acres apiece for every man, woman and child in the union.

☞ A proposition is before the city government of Cincinnati, to lay out a magnificent park, to embrace the Shoenberger woods, Burnet woods, a portion of Riddle's woods and other tracts now covered with forest trees, the whole comprising some five hundred acres of land

TO THE TRAVELLING PUBLIC.

Whereas reports have been industriously circulated, calculated to prejudice the travelling community against the strength and seaworthiness of the steamer Penobscot, the Agents respectfully call the attention of all parties interested to the Certificate of the Inspector of Steamboats appointed by the U S. Government and exposed to the inspection of passengers as provided by law, in a conspicuous place on board the boat Also to the Certificate of Capt. Pearce, Marine Inspector of the port of Boston, contained in the following report, likewise to Sec 26th of the Act of Congress relating to Steamboats, as follows —

"That every Inspector who shall WILFULLY CERTIFY FALSELY touching any vessel propelled in whole or in part by steam and carrying passengers, her hull, accommodations, boilers, engines, machinery or their appurtenances or any of her equipments or any matter or thing contained in any certificate signed and sworn to by him, shall, on conviction thereof, BE PUNISHED BY FINE NOT EXCEEDING FIVE HUNDRED DOLLARS, OR IMPRISONMENT NOT EXCEEDING SIX MONTHS OR BOTH'

The Agents of the steamer Penobscot hereby offer to pay ONE HUNDRED DOLLARS REWARD to any one who will produce testimony sufficient to criminate any person who has circulated or shall hereafter circulate reports prejudicial to the character of the steamer Penobscot as regards her staunchness and safety as a seagoing steamer or who shall by false representations influence the minds of the travelling public against her

of Steamer Penobscot, }

DEAR SIR—In compliance with your request, I hereby transmit you a copy of the report of the survey of Steamboat Penobscot, as made to the Insurance Companies of New York, Boston and Philadelphia, May 1853, viz

Steamer Penobscot, William Flowers, Master, owned at Philadelphia, and built at New York City in 1843, owned by R F. Loper Esq 614 tons, DD and House, 7 feet draft, 2 anchors and kedge, copper fastened and Metaled to 7 feet, May 1852 2 chains 60 and 75 feet 1½ inch 2 H. Rigging, and one suit of sails new Rate A 1.

RECORD

Steamer Penobscot of Philadelphia, was built in New York 1843, of white oak &c Length on deck 193 feet, beam 26 1-2 feet, depth 10 feet, and tons 494 And now has a new bow, making her length on deck 225 feet and tonnage 614 Her frame is of white oak, chestnut, red cedar and locust, white oak keel, and two white oak keelsons, 14 inches square, and bilge keelsons of hard pine 18 inches square, all heavily fastened. Has three inch white oak, outboard bottom plank, and six white oak ceiling three inch, six white oak bilge streaks on a side 6 by 7 inches and three hard pine clamps 3 1-2 by 12 inches, all well secured, and hanging knees on the outside, well bolted, good decks, rails and bulwarks—was altered at Philadelphia, and bow lengthened out and completed April 1853 Her bottom was re-caulked, and new coppered May 1852, and forward caulked and metalled March 1853, new beams forward, and hanging knees on the inside, well secured Everything forward new—has new boilers, walking beam and piston rod, all new valves and force pumps, to work by steam or hand. New furnished throughout for a Pack et and all new painted, new wheels, new rigging and sails, *no patch work*, and finished throughout in a workmanlike manner, was inspected by me while under repairs at Philadelphia, Jan. 14th and since completed

In addition to the above record, I would further state, that when I examined her at Philadelphia, she was opened in such a manner as to expose every thing which I thought important to examine for the safety of the several Insurance Companies which I represent, and it is with pleasure I state, that not the least appearance of strain or decay was discoverable in any part Her work and materials were all of the first quality and the addition forward, secured in the best possible manner, and with the addition of new boilers, wheels, and a thorough overhaul and repair to her engine, and an entire new equipment, I can see no reason why she is not as safe and good a Steam vessel as we have anywhere along our shores And this is certainly my opinion

Yours &c

Marine Inspector and Surveyor,

EXPLOSION AND DESTRUCTIVE FIRE Soon after 11 o'clock this forenoon, the boiler in the three story brick building corner of Cambridge and Charles streets exploded scattering fire in various parts of the building The flames spread with fierce rapidity, and in a few minutes the whole interior was in a blaze, and nothing but the walls now remain

The flames communicated with a wooden building adjoining, and also with the low wooden building on the opposite side of Cambridge street, and adjoining the toll house The first was destroyed, and the latter badly damaged The bridge and several other buildings were in great danger, but were fortunately preserved from much damage.

The building in which the fire originated was owned by *Benjamin Simmons*, and occupied by him as a coffee mill, J Templeton, marble worker, E. G Allen, saw and planing mill, and by ——, as a leather dressing factory The loss is estimated at from $6000 to 10,000, on which there is partial insurance

RUMORED INSURRECTION OF THE SLAVES—ARRESTS, &c

NEW ORLEANS, June 14

Great excitement exists on account of rumors of an intended rising among the slaves in this city Information was given to the police late last night, by a free negro, who pointed out the ringleader The latter, when arrested, was found heavily armed, and confessed that a band of twenty five hundred negroes were well organized, and had matured a plan to attack the city the next day, at several different points at once, including the powder magazine, Mint, the principal banks, &c. The whole city was then to be set on fire, as a signal for the slaves in the surrounding country to rise and join the insurrection Twenty other arrests have been made

WHEREVER THAT GREAT MEDICINE called H G FARRELL'S CELEBRATED ARABIAN LINIMENT, has been introduced it has performed the most extraordinary cures in the annals of medical history—every body who uses it once becomes its warmest friend—they not only keep it always on hand for the benefit of its timely use in cases of emergency, but recommend it to all their friends. It has been before the public for nearly ten years and yet it is daily developing new virtues many diseases have been cured by it for which the proprietor has never recommended it, its magical virtues spread through the land with the speed of lightning and many very many poor invalids, who had supposed their days on this earth were fast drawing to a close, have been by a persevering use of this invaluable Liniment HEALED, and now rejoice in the blessings of health, and the enjoyment of this beautiful world Read this to believe, and not to doubt Inquire of your neighbors, whom you know to have used it, and they will tell you that no medicine ever discovered possessed the half of its extraordinary healing powers — The racking pains of rheumatism and neuralgia yield in a few minutes to its powerfully anodyne properties "The time are made to walk " Old sores, which have rendered the subject a loathsome thing to behold, are healed The weak and trembling from deranged state of the nerves, by the use of this Liniment, rejoice in the recovery of their former health and strength Many long standing affections of the liver, lungs and kidneys have yielded to its use, after the various remedies had failed It is very efficacious in curing the diseases of horses and cattle such as sweeny, sprains, bruises, swellings, cramps, lameness, dry shoulder splint etc, and if used in the beginning, never fails to stop the further progress of fistula, poll evil ring bone and spavin

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit, which has lately made its appearance, called W B Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor and wholesale druggist, No. 17 Main Street, Peoria Illinois to whom all applications for Agencies must be addressed Be sure you get it with the letters H G before Farrell's thus—H G FARRELL'S—and his signature on the wrappers, all others are counterfeits

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor Also by R F Russell, Oldtown French & Hamilton, Dexter Geo Fercher, Ellsworth P O Flaherty, Houlton And by regularly authorized agents through the United States

☞ Price 25 and 50 cents, and $1 per bottle

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established Address H G Farrell as above accompanied with good reference as to character, responsibility, &c

Superior Shoulder Braces.
MANUFACTURED by Marsh & Co 212 Maiden Lane, New York The object of this Brace is to correct habitual stooping, round and crooked shoulders weak back and chest and preserve that erect and graceful position indispensable to health and beauty, expanding the chest giving the lungs a free and healthy action It is adapted to men women and children, of all ages occupations and conditions, it is light, yet perfectly elastic and warranted to retain its elasticity, and is beautifully adapted to the object assigned The shoulder straps are so constructed as to give the main bearing on the point of the shoulder, are stayed so as not to wrinkle up and form a string—are padded where they come under the arm there by preventing that cutting under the arm so much complained of in other Shoulder Braces These Braces are not put together by machinery which are sure to rip, but are stitched together in the most substantial manner by hand
Also, Marsh s Self Adjusting Trusses, which have effected more radical cures than all others combined

PROFESSOR ALEX C BARRY'S
TRICOPHEROUS.
or Medicated Compound,
FOR beautifying improving, and preserving the Hair curing cuts bruises burns stings rheumatism and all irritations of the skin A preparation the sale of which amounts to one million of bottles annually would seem to need no advertisement, but as the thousands who purchase use and approve of it have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books and with them enders his earnest and hearty thanks to his innumerable patrons
Professor Barry s accounts of sales for the year 1852 show that during that year about 910,000 bot tles of his Tricopherous were disposed of and that the cash product of this immense sale was nearly $300,000
This plain unvarnished tale is a better commentary on the value of the article than any thing its inventor could say If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts bruises burns skin diseases &c —it would not of course be so universally in demand The wealthy portion of the public would buy it at any price but Professor Barry has reduced it to a figure so low that the poor est can avail themselves of its benefits
Sold in large Bottles [price 25 cents] at wholesale and retail at the manufactory and depot 137 Broadway New York and by the principal merchants and druggists throughout the United States and Canada Mexico, West Indies Great Britain, France &c

Admirable Invention!
PATENT SELF HEATING
SMOOTHING IRON!
MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing besides being a great saving of time and expense This Iron combines economy, convenience, saving of labor and despatch, one cents worth of dry charcoal supplies fuel for a whole days constant ironing Hard wood coal from the stove will answer the same purpose It can be used in any room or in the open air Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

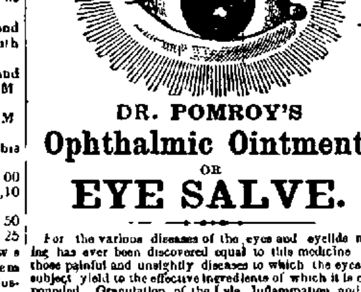

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS
THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure And as regards the benefit of this article over the clear oil, the following case, by Prof Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age
"Her disease was one of unmixed phthisic, which had been expected to terminate in the course of a few months, fatally The upper part of both her lungs were filled with tubercles; and in some places were beginning to soften The case was evidently a bad one The treatment of Cod Liver Oil was at first used, but without marked improvement The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent The patient was rapidly getting well"
CAUTION —On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner Therefore as you value your health, purchase none except that manufactured by

DR. POMROY'S
Ophthalmic Ointment,
OR
EYE SALVE.

For the various diseases of the eyes and eyelids nothing has ever been discovered equal to this medicine All those painful and unsightly diseases to which the eyes are subject yield to the effective ingredients of which it is compounded. Granulation of the Lids, Inflammation and Ulceration of the Lachrymal Glands Humors, Sties, Weakness of the eyes, Watery eyes, Rheum, whether acute or chronic, are entirely cured by it.
After a few applications the fever and soreness are removed, the swelling subsides, a fresh and healthy color succeeds the inflamed and irritated appearance the crustations caused by the discharges of the diseased surface falls of, and the strength, health and beauty are restored.
When once the lids and glands are in a healthy state the eye, no longer suffering in sympathy with its surrounding parts, recovers its energies, and is able to perform its important functions without weakness or pain.
This salve is a mild preparation, designed expressly to suit the extreme delicacy which forbid the use of powerful applications to the organs of vision. It may be used with entire safety in all cases, and seldom fails to cure Many cases of Chronic Inflammation where the sight has been greatly impaired have been entirely cured by this simple application It is believed that the salve has in no instance failed to benefit. All who have suffered with sore eyes, know how painful it is to be obliged to exercise the sight, long and steadily, when they are diseased. They will hail with joy anything that brings a remedy This Salve invariably soothes and comforts the aching pain and will in a vast majority of cases affect a radical cure. Affections of the optic nerve are more difficult to manage than those of the outer surface, but still, by the use of this valuable salve they are greatly relieved, and often entirely cured.
☞ This Salve is also recommended for Eruptions Chilblains, Burns Cracked and Sore Lips, Chapped Hands, Scrofulous Sores, Pimples about the Face, Piles Ulcers, &c

To the readers of the Whig:
Will you read the Truth.

A MEDICINE must have merit, and great merit too to stand the test of public opinion No art of puffing can galvanize a worthless article so as to keep it alive as a good medicine if it be not really so
A good medicine will live, become popular, and extend its sales year after year, in spite of opposition The people readily find out its virtues, and its fame passes from mouth to mouth with more rapidity than newspapers can spread it. A living witness testifying to the cure that a medicine has made for him, is of far more service than any newspaper advertising.
In proof of what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE, and its effects Its praise is in the mouths of multitudes The best men in our country give their testimony to its wonderful cures Among them we name Hon Henry Clay, Hon Richard M Johnson, Vice President of the United States, with hundreds of others Capt Thomas Cannot—brother to the celebrated physician of the Emperor of France—was cured by it of a disease of seven years' standing after the skill of the doctors of Europe and America had failed
In the United States Navy it is taken with great success, several officers being cured by it, officers of the Department, Washington, speak of its wonderful cures
In fact, the rich and the poor, young and old, in every place, in the city and country find the same success attends its use
HAMPTON'S VEGETABLE TINCTURE is purely vegetable, and warranted free from all mineral substances This Tincture, by its mild, pleasant and safe action on the stomach liver, kidneys, lungs and the nervous system cures Dyspepsia, Liver Complaint, Diseases of the Urinary Organs, Coughs, Asthma Bronchial Affections, Consumption, Scrofula King's Evil Worms, Rheumatism, Gout, Neuralgia St Vitus Dance, Fits, Nervous Affections generally Fistula, Piles, Bowel Complaints with all diseases arising from impure blood As a remedy for the various derangements of the female system it seems to have no superior
☞ What we ask of the public, in introducing this valuable medicine is to throw aside their prejudices and give it a fair trial We shall publish in this paper, from time to time, testimony from persons whose reputation is known throughout the United States and who have been entirely cured when other medicines have failed It is no humbug and the public will be satisfied that what we say is TRUE, after a fair trial

How the Discovery of the Vegetable Tincture was made.
DR HAMPTON now in his 77th year was early in life much reduced by disease, had spent much of his living in medical advice and grew nothing better but worse, when finding that none of the mineral medicines could reach his case, he came to himself, and thought why should I die with disease when the Creator has provided in his vegetable kingdom that which will make me whole again? I will go and search out those roots and herbs which I have seen the Indians and the early pioneers give for the cure of disease. I will so compound them an increase or decrease the quantity of each until I get such a medicine as shall cure me of my disease The doctor carried out his noble resolution, brought to his aid the experience of the RED MAN, and all others from whom any thing could be learned of the healing powers of the roots of the vegetable kingdom In a short time, as by magic, the Doctor was cured of his disease The fame thereof spread abroad, his neighbors sent far and near for this wonderful discovery, which was freely given to them, and all partook with the same success until the demand became so great that the Doctor could not in justice to himself, and without great pecuniary loss, supply the demand gratis which induced him, reluctantly by the advice of his friends, to put a small price on his Vegetable tincture which was cheerfully paid, and considered but small indeed to the amount of good received by those who took his medicine—the most wonderful discovery in the healing art of the age

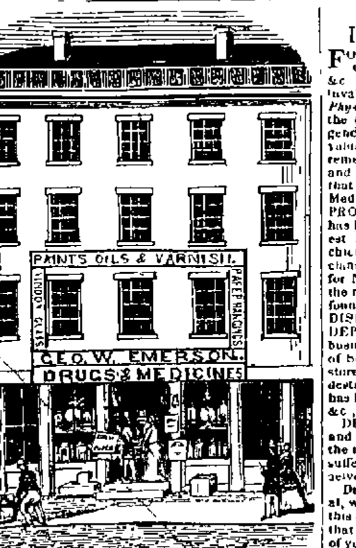

The world cannot produce Stronger Evidence Than this kindly handed to us by J Stockbridge Esq, of the Fountain Hotel Light street, a gentleman extensively and favorably known The writer of the letter, Capt Canot, is the brother of the celebrated physician to Louis Napoleon, President of the French Republic Numerous of our most respectable citizens will give equally strong testimony in favor of

Hampton's Vegetable Tincture
It is a most certain cure for Dyspepsia Scrofula Liver Complaint, &c and all diseases from impure blood
BALTIMORE, June 4 1851
Mr Stockbridge, of the Fountain Hotel, Light st Balt
Dear Sir—being on the point of leaving the city I avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my hands I beg you to send me four bottles more to carry on my voyage Since I had the fortune to use Dr Hampton's Vegetable tincture my confidence is so strong that, in gratitude to the proprietors of the medicine, I beg you to present my respects to them and induce them to make it more publicly known as a sure Rheumatic cure Having called on me, on the 19th of April last, and seen me prostrated on my bed useless in all my limbs you can appreciate nearly as well as myself the prompt relief I received from Dr Hampton's Tincture and I am positive had it not been for your strong and forcible recommendations I should still have been in bed
It is really a pity this specific should not be approved by medical men and like all patent drugs it should suffer the imputation the public generally give to such preparations I myself who was always opposed to a patent specific, took this medicine with reluctance and without confidence in it, but it was only through your disinterested friendly recommendation and my critical situation that induced me to try this really beneficial Vegetable Tincture
You may inform Messrs Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr Hampton's Vegetable Tincture, as it has cured me, in five weeks of a chronic inflammatory Rheumatism, contracted under tropical climates and of 7 years periodical duration I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance
I have been under the treatment of several physicians in London and Paris without any apparent benefit, also, while in New York having tried the Thompsonian and Homœopathic remedies after having been tormented with galvanic batteries, cold and aromatic baths and hundreds of internal and external remedies, all to no effect, I am so far, cured by this Hampton's Vegetable Tincture only Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well wisher,
THOS CANOT

Cure of Consumption, Neuralgia Pain in Side &c
BALTIMORE May 1 1852
Messrs Mortimer & Mowbray —Gentlemen —It is with pleasure I can testify to the great healing powers of Hampton's Vegetable Tincture My wife had been afflicted for three years, laboring under a constant hacking cough, with a most violent pain in the right side, neuralgia of the head, and dimness of sight, very little rest day or night, and much emaciation and to all appearances a rapid consumption inevitable We had the most eminent physician in Annapolis but his medicine did not give her any relief at all but growing worse if any change in the least, and having read one of your pamphlets, in July last, she concluded to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better, her appetite improved, her skin became quite clear coughs, pains, neuralgia, &c, entirely left her, and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of excellent health

Mr E Bosch—Dear Sir, While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture For several months past I have used it in my family, and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy VERNON ESKRIDGE,

Self Acquired Fame!
DR. JOHNSON'S
AMERICAN ANODYNE LINIMENT.
For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs Colds, Asthma Bronchitis, Whooping Cough Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds are magical Persons troubled with Cramp in the Stomach Side or Bowels, Sore Throat Piles, &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendations, as it has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica — The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a distressing cough, and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption My legs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me, and by the use of three or four bottles I was entirely cured, and have since been able to labor every day I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN I ATKINS
Brewer, Sept 29, 1852

DR JOHNSON Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles, my leg was limbered and strengthened and for a number of years I have been able to use it about as well as the other. I consider myself indebted to the use of your Linement, through the blessing of Providence, for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured

DR. MORSE'S
INVIGORATING CORDIAL!
FOR GENITAL DEBILITY, IMPOTENCY IN CONTINANCE OR NOCTURNAL EMISSIONS &c The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered In fact as a remedy for the above complaints it stands unrivalled and alone There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London Paris and the chief cities of Europe, as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES It will remove all nervous affections, DEPRESSION EXCITEMENT, Incapacity to study or business loss of MEMORY CONFUSION thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite renew the health of those who have destroyed it by Sensual Excesses, or evil practices It has been said by some that these disorders, emissions, &c, were incurable This however is not the fact
DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the writers received will conclusively show
Dr Woodward of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial thus — It gives me pleasure to inform you that one of my patients, while in Boston procured some of your Cordial He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week When he applied to me, says Dr W, "I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in those cases in the hospital but they had no effect In the meantime he purchased some of your Cordial which has affected a cure I am sure no other medicine would I will ever recommend whenever an opportunity occurs!"
The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of course out of the question and the proprietor could produce a list of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and apparently miraculous virtues In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation And it is equally potent for many diseases for which it is recommended
THE MEDICAL JOURNALS have not in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints It has, in many violent and desperate cases effected radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character
THE COMMON EXPRESSION
Of those who have used this Extract is—"I had heard your Cordial highly spoken of but was incredulous as to its merits having tried various medicines for the same purpose different times without deriving any benefit I had almost given up all hope of obtaining relief when I purchased some of your Cordial I had no faith whatever of its benefiting me—but it has I feel stronger have had no emissions now although it is not three weeks since I first commenced taking it I will cure me."
A sixth says — I have consulted several distinguished physicians Some said I could not be cured others prescribed this thing and that but I did not receive relief I procured some of your Cordial I must say it completely cured me
A other says — I was surprised at the effect your Cordial had Why had I not heard of it before It would have saved me so much expense besides years of mental and bodily suffering
CAUTION—Ask for Dr Morse's Cordial and take no other as there are worthless imitations which its unrivalled excellence fame and popularity have brought into the market It will not cost the most Write for circulars, and beware of all other Cordials &c, and try this.
Note — Persons unconsented [illegible] from Dr Morse personally or by letter (post paid) at his office [illegible] street Boston The necessary advice and medicine forthwith speedily removed [illegible] disability will be safely forwarded to the writer's address
Dr M is prepared to warrant a perfect cure in every case he undertakes.

Sarsaparilla Yellow Dock, Wild Cherry Prickly Ash, Dandelion, Thoroughwort, and Rhubarb
ROOT and HERB BITTERS!
Decidedly the greatest Medicine in the World for the least money
"Buy me and I'll do you good"

THIS invaluable compound has now been before the public three years during which time nearly Three Hundred Thousand Bottles have been used thus proving it the most popular Medicine of the age No poisonous drugs or minerals such as Opium, Antimony or Mercury under any of their hydra headed forms, compose any part of these Bitters The medicinal virtues of the best Roots, Herbs, and Barks in the world are so compounded as to act in concert with nature They cure and eradicate from the system Liver Complaint—that main wheel of so many diseases—Jaundice Bile, Dyspepsia Costiveness Humors of the Blood and Skin Indigestion Nervous Headache Piles General Debility and the host of kindred diseases arising from a disordered stomach or bad humory blood On the approach of warm weather most persons are troubled with Languor Drowsiness and general lassitude of the system This if neglected leads to Jaundice, loss of Appetite Indigestion Debility and decline Langley's Bitters are just the thing to obviate all difficulties of the kind They regulate the bowels stimulate the circulation purify the blood and by a constant use keep off diseases so common in Spring and summer Coughs and Colds are by its use broken up and cured at once. In short this medicine is safe for all ages and conditions and in all climates It always does good and never does hurt No long certificates, no flaming handbills or costly wrappers are used to puff it into notice All who try them will say as more than 200 000 persons can testify that one Bottle will do them more good than forty Latin prescriptions of poisonous drugs by which so many persons are annually killed
The effect of this medicine upon the system is most wonderful —Its healing cleansing and purifying qualities operate with magic-like power upon all classes of diseases for which they are recommended. All who use them like them because they ARE what they PROFESS to be

NEVER FAILING REMEDY

Holloway's Ointment.
A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING
Copy of a Letter from Mr Thompson Chemist [illegible] dated Aug [illegible]
To Professor HOLLOWAY
Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer About [illegible] years ago, Mr W Cummins of [illegible] in this town was thrown from his horse when he received very serious injuries; he had the best medical advice at the time and was afterwards an inmate of different infirmaries yet he grew worse and at length a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly ten years, recently he began to use your Ointment and Pills which have now healed the wound strengthened his limb and enabled him to dispense with his crutches so that he can walk with the greatest ease and with renewed health and vigor Signed J THOMPSON
A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED
Copy of a Letter from Mr Bird, [illegible] near Gainsboro dated March 1st [illegible]
To Professor HOLLOWAY
Sir —Some time since one of my children was afflicted with dreadful eruptions over the body and limbs I obtained the advice of several eminent Surgeons and Physicians by all of whom the case was considered hopeless At length I tried your Ointment and Pills and without exaggeration the effect was miraculous for by persevering in their use all the eruptions quickly disappeared and the child was restored to perfect health
I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicine she would have been saved also I shall be happy to testify the truth of this to any enquirer (Signed) J BIRD D[illegible]
